Saunas - Steam Rooms - Wellness Suites - Hydrotherapy Pools

The Uzume Wet Salt Room.  
(Uzume - Japanese goddess of The Dawn).

Aachen Wellness design and build bespoke Wet Salt Rooms for both the domestic and commercial market; these feature rooms can be designed to any shape or size to maximise the space available.

This feature room is designed and constructed to the same specification as a "Freyja" Steam room with all the luxury extras available as well. The difference is that is room consists of heated seats and walls along with an automatic salt injection system, the salt is injected into the steam on an adjustable timer system providing a pleasant ocean like atmosphere which helps to clear congestion, soothe the body and aid the respiratory system. The "uzume" salt room provides the same healing therapy as the heavily visited Dead Sea which has proven qualities with regards to asthma and skin disease, the salt absorbs the fluid in the lungs and dries out the remaining mucus whilst also leaving your skin feeling fresh and rejuvenated.
